

# LIVES SAVED... by blood donors

## *Christopher Przywara*

*Shortly after he was born, Christopher Przywara needed blood transfusions to save his life. Today, he is a healthy three-year-old who loves to sing and play with trains.*

## *Suzy Yohannan*

*Suzy Yohannan had serious complications after giving birth to her second child. She needed 14 pints of blood to survive. "I wouldn't have made it without blood donors — that's very clear to me. What they give is the ability to live."*

## *Whitney Webb*

*Whitney's mom needed numerous transfusions of platelets during her battle with cancer. "My mom's quality of life improved so much because of the platelets she received." Whitney is now an advocate for blood and platelet donations.*
